"Willard is a small class room environment that promotes learning through play! I love how comfortable they help parents feel and meet each individual child where they are at. My daughter refused to go to school and would throw fearful tantrums at three other daycares. Willard helped all of us transition and helped make her comfortable. It's been so amazing to watch her grow in her personality because Willard was willing to work with her!"

- Sarah F. - 2021

"I would say that the Willard community staff has been exemplary in communicating about the day to day happenings in the classroom and have done an incredible job of making our child's growth in all arenas their top priority. We feel incredibly fortunate to have such a professional and enriching community for our child to grow in and they have really touched our lives in an immensely positive way."

- Amy M. & Jesse M. - 2021
